

AR Timeline

50
1958 - 2008

"It is our conviction to still have a long way to go in our chosen field of high pressure pump manufacturing..."
It was in 1958, that the first steps on this successful path were taken.

Some 50 years have passed since then. Today, those same words ring equally true; Annovi Reverberi is a constantly growing reality, a leading organisation active in worldwide markets, in the specific sector of diaphragm pumps, high pressure pumps and high pressure washers.

"É nostra convinzione di avere ancora molto cammino da percorrere nel ramo specifico della costruzione di pompe per alta pressione..."
Annovi Reverberi presentava il proprio lavoro, era il 1958.

2008, di anni ne sono passati 50 e con le stesse parole presentiamo la nostra azienda, una realtà in costante crescita, presente da protagonista sui mercati di tutto il mondo nel settore specifico delle pompe ed idropultrici ad alta pressione.

Corrado Reverberi
President

1962
First export sales
Inizio export

1974
New facility in Modena, Italy
Nuovo stabilimento di Modena

1981
Begin exporting to the USA
Inizio export USA

1989
AR North America Inc. is founded.
Nasce la AR North America Inc.

1995
New facility in Bomporto, Italy
Nuovo stabilimento di Bomporto

2004
New facility in Shanghai, China
Nuovo stabilimento Shanghai (PRC)

1959
Urania pump
Pompa Urania

1962
Jolly - the first pump driven by the PTO
Jolly - la prima pompa azionata dal PTO

1966
MEC 45 - the first plastic-coated diaphragm pump
MEC 45 la prima pompa a membrane plastificata

1974
AR230bp diaphragm pump
Annovi Reverberi becomes the worldwide leader of spraying pumps
Pompa a membrane AR230bp
Annovi Reverberi diventa leader mondiale pompe da diserbo

1974
LP piston pumps
Pompe a piston LP

1986
Blitz - the first 100 bar portable high pressure washer
Blitz, prima idropulitrice portatile a 100 bar

1992
Total Stop for high pressure washers
Total Stop per idropultrici

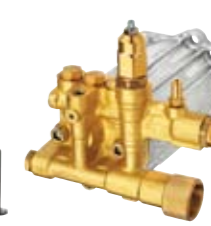

1995
RKV piston pump. Annovi Reverberi conquers the American market
Pompa a pistoni RKV. Annovi Reverberi conquista il mercato americano

2001
BHS series of brass manifold pumps
BHS pompe con condotti esterni in bronzo

2006
RMV

2006
The AR Blue Clean line is created
Nasce la linea AR Blue Clean
